

Horizon Collaborate

A complete unified communications experience for your business.

Introducing Horizon Collaborate

Effective communications are fundamental to business success

Today, more so than ever, your business needs to be agile to respond to customers quickly, day or night, and your employees need to be equipped to handle a constant flow of queries across multiple channels. In this new digital age we live in, faster response times can be a key differentiator, helping you stay ahead of the competition and stand out in a crowded market.

Whether internally collaborating with other employees or dealing externally with customers, your business would benefit from a fully-unified ICT environment. By effectively connecting people, applications, clouds and networks, you can transform how quickly and efficiently information is shared, thereby satisfying your customers' increasing demands as well as improving employee productivity.

A true unified comms experience

Our new cloud-based Horizon Collaborate offers instant messaging, presence, voice, video, desktop and application sharing, and document sharing. Driven through a set of end user applications for Windows, Mac, Android and iOS, it enables users to access business communications and collaboration services from their favourite devices - wherever they are.

Fully integrated with the award-winning Horizon hosted PBX service, Horizon Collaborate supports all the features and functionality of the telephony service for a true unified communications experience.

Business benefits

Great features - all in one place

Horizon Collaborate is suitable for any sized business looking to improve productivity, increase collaborative team working, attract more diverse talent and speed up business decisions.

Instant messaging

Online chat between users, reducing email inefficiencies.

Video Calling

Create a stronger collaborative experience using visual communication from mobile or desktop app.

Presence

Shows personal status such as 'available', 'busy', 'meeting', 'away' that helps determine the best way to communicate.

Ad-hoc and planned conferencing

Quick and easy multi-party collaboration using My Room, a personal and fully managed conferencing space for voice, video and sharing.

Hosted PBX features

The full telephony feature set and service including bundled minutes.
